Andy and Ros have suggested we visit on a June morning as that is when their large area of meadow is at its best. The whole garden is around 2.5 acres in area, including a sloping hillside. The planting is naturalistic and includes a wide variety of trees, shrubs and perennials. The terrace features numerous pots and containers; there is also a small gravel garden and two ponds.

We should arrive by 10.30 a.m. for coffee, biscuits/cakes followed by a tour, with the opportunity to chat, ask questions and explore the garden individually. We expect to leave between 12-12.30 p.m. but as mentioned previously some of us are planning to go on to spend the afternoon at the Sir Harold Hillier Gardens in Romsey.

At Sandhill Farm there will be books and plants for sale.
